

GBC® EZLoad® Gray End Cap Laminating Roll Film, Gloss, 27" x 500', 1.5 mil, 1 Roll

3126061EZ

PRODUCT DESCRIPTION

Take the guesswork out of film loading with EZLoad technology that eliminates film loading errors.

FEATURES

- EZLoad technology helps eliminate film loading errors. Color coded light gray and dark gray end caps show the correct way to load film, which avoids accidental upside down loading.
- GBC EZLoad NAP I Laminating Film 27" x 500' is compatible only with GBC Ultima 65® (post 2016), Pinnacle™ 27 EZ (post 2017) and Ultima® 55 EZLoad Laminators, which have gray saddles
- Choose the right film for your job. The 1.5 mil thickness provides protection while retaining flexibility. Select 3 mil if you need something with more rigidity but is still flexible.
- NAP I film is the most common type of school lamination roll film and is ideal for everyday projects.
- Keep your documents bright and bold. Glossy film has a shiny finish that helps emphasize colors.
