

Optional FD 396 Right-Angle Folder

The FD 390 high speed air feed document folder is ideal for mail rooms, print shops, mail houses or virtually any other high volume environment. The bottom in-feed air system allows for continuous loading of forms while the extended out-feed stacker cuts down on the unloading of folded documents. Both features decrease processing time and increase efficiency.

A chart for seven common fold settings is located on the out-feed stacker for easy setup. Micro-adjustment knobs are used to fine-tune the stopper position making crisp and accurate folds every time. Its control panel is clearly marked and conveniently located, while the infeed and outfeed are located on the same side, saving space and decreasing operator fatigue.

Operating Features

- Bottom Air Feed:** Allows for continuous loading of forms
- User-friendly Control Panel:** Clearly marked and conveniently located
- Multiple Air Adjustments:** Allows for feeding consistency on varying applications
- 5-digit Counter:** Keeps an accurate count of all folded documents
- Adjustable Side Guides:** Compensate for unsquare paper stock. Guides can be easily adjusted for the skew and returned to square
- Fine Tune Adjustment:** Accurately sets stoppers for crisp and accurate folds
- Extended Outfeed Stacker:** Keeps folded documents in a neat sequential order
- User Friendly Design:** The infeed and outfeed are located on the same side, saving space and effort
- Adjustable Paper Fold Length:** Folds documents from 3" x 5" to 14" x 20"
- Variable Speed:** Folds up to 35,000 forms per hour
- Perf / Score Attachment:** Perforates and scores 20-28 lb paper

Control Panel

Convenient infeed and outfeed, designed for ease of operation

Rugged Construction

- Rigid Steel Fold Plates:** Give the FD 390 the strength to absorb the impact of up to 65# cover stock
- Sealed Ball Bearings:** Maintenance-free bearings eliminate the need for lubrication
- Automatic Roller Tensioning:** Compensates for different paper thicknesses, increasing roller life and decreasing setup time

Folding Features

- Seven Standard Folds:** A fold chart with 7 common fold settings is located on the outfeed stacker for quick and easy setup
- Air-Blast Control:** Increases or decreases airflow to infeed table for better separation of forms, increases accuracy of feeding curled forms and/or those with static electricity

Options

- FD 396:** Right angle folder
- Dedicated Perf / Score Attachment:** Perforates and scores heavy paper stock
- 402 Series Jogger:** Reduces static electricity and aligns forms for proper feeding

Optional FD 402 Air Jogger - High-capacity air jogger reduces static electricity from forms and aligns them for proper feeding

Specifications

Hopper Capacity:	Up to 350 sheets
Variable Speed:	Up to 35,000 pieces per hour
Paper Size:	5" - 20" L x 3" - 14" W
Paper Weight:	Up to 65 lb. cover stock
Power:	110 VAC, 20 Amp (60 Hz) NEMA 5-20P plug included, NEMA 5-20R receptacle required
Dimensions:	24.5" W x 49" L x 27" H
Weight:	310 lbs
