

Mead® EZAlign™ Thermal Laminating Pouches, Letter Size, 3 Mil, 150 Pack

39030

PRODUCT DESCRIPTION

EZAlign™ pouches greatly simplify laminating letter size and smaller, unconventional documents. The helpful alignment grid and directional arrow put your item in the right spot for perfect results. Plus, pouches can be cut to the size of your item to get more than one use from each pouch.

FEATURES

- Thermal lamination pouch includes visible EZAlign™ features that magically disappear after lamination
- Box includes 150, clear, letter size pouches
- EZAlign™ grid printed on the front of pouch makes it easy to line up and center items
- Directional arrow guides which edge of the pouch should be fed into the laminator first
- Insert small items, such as business cards, and cut pouch to size. Carrier included to laminate only the small item.
- Remainder of the letter size pouch is still usable for future lamination needs
- Grid and directional arrow on EZAlign™ pouches are gone after lamination for crystal clear results
- 3 mil thickness produces reliable, flexible lamination
- Compatible with most thermal laminating machines, including Swingline® brand laminators
